On page 1, line 14, change "four" to --for--.

On page 4, line 13, after "input/output" insert --module 20--.

IN THE CLAIMS:

Please amend the claims as follows:

29. (Once Amended) The method according to claim 27, further comprising the steps of:

[g] I) receiving access data from the computer in the dialer; and

[h] j) storing at least temporarily the access data in memory in the dialer.

30. (Once Amended) The method according to claim 27, further comprising the step of:

[g] k) programming the processor from an external source with telephone numbers and access data.

31. (Once Amended) The method according to claim 27, further comprising the steps of:

[g] l) transmitting account information upon detection of a request signal from the telephone network.

REMARKS

Introduction

The Office Action mailed February 4, 1999 has been carefully reviewed and the foregoing amendments and the following remarks are made in response thereto. As a
